Organizing a wire harness for a Cessna 182

Audio panels (with internal intercoms) have more wiring in them than any other system. Each airplane has different equipment so they'll have to research interfaces for hard data to work with, hopefully they would create drawings that they give you at the end.

Audio Panel install cost | Pilots of America

1) Locate a convenient spot in your aircraft to install and to placard a Mic Jack and a Headphone Jack. Label them Auxiliary Mic and Auxiliary Headphone. Connect these jacks to the appropriate points to either the aircraft radio or audio selector panel. You might need to call the manufacturer of the radio or audio panel to get this information.
