It's easy to search Wikibooks by topic, and there are separate sections for recipes and childrens' textbooks. You can download any page as a PDF using a link provided in the left-hand menu, but unfortunately there's no support for other formats. There's also Collection Creator - a handy tool that lets you collate several pages, organize them, and export them together (again, in PDF format). It's a nice feature that enables you to customize your reading material, but it's a bit of a hassle, and is really designed for readers who want printouts. The easiest way to read Wikibooks is simply to open them in your web browser.

Five Winds Asset Management

The business model of Five Winds AM is same as of those two illegal companies. FiveWindsAM is an illegal company, a Ponzi scheme from the same group which have other illegal companies like Atlantic Global Asset Management and Questra World.

Five Winds Asset Management Review - a Scam Test

As their Questra World Ponzi collapsed, the scammers behind it and Atlantic Global Asset Management launched Five Winds Asset Management. Despite the arrest of founder Pavel Krymov and active criminal investigations in Russia and Kazakhstan, recruitment of gullible investors into Five Winds shows no signs of slowing down.

Five Winds Asset Management illegal in Germany, warning issued

We are going to talk about Five Winds Asset Management (FWAM) once again. News about this service is disappointing. The investors can't withdraw funds. It is very strange, because of the short period of existence of the site. If you don't know, Five Winds is a business successor of the pyramid scheme which is called AGAM. AGAM payed interest for the purchased investment portfolios stably (in order to involve new investors).
