Building on these comparisons, the undeniable strength of Preschool in Three Cultures Revisited is its complex, cross-cultural examination that avoids binary distinctions. By situating the United States between China and Japan across the spectrum of societal continuity and change, these authors further disrupt dominant notions of an East-West dichotomy.

The Harvard Educational Review - HEPG

Preschools are where young Japanese children become Japanese, young Chinese children become Chinese, and young American children become American. In other words, preschools are key sites for the continuation and transmission of culture. These were the main findings of Preschool in Three Cultures: Japan,
